KKW Aboriginal Engagement Framework

Guided By The Seasons

The seasons also guide everything we do at Danjoo Koorliny, with each year's festival and summit being held in a different season. Danjoo Koorliny began in the Noongar season of Makuru (roughly June-July) in 2019 and will continue through the seasons each year to 2029.

This process is by design of the leaders of Danjoo Koorliny. Using this method, we will never go backward in our work, nor too far ahead of ourselves, and keep things grounded in the six-season cycle of our land.
